Applicant's Response

1. In Applicant's Response dated 07/30/2008, Applicant amends the claims and provides corresponding arguments that are persuasive.

All objections and rejections previously set forth are withdrawn.

Allowable Subject Matter

2. Claims 17-27, 33-36 are allowed.
3. The following is an examiner's statement of reasons for allowance

Claims 17, 18, 20, 26, 33-36

The following is a statement of reasons for the indication of allowable subject matter: The prior art of Komura, Hasbe, Stone, Imaizumi, and Nagasato are not seen as displaying a grid that is arranged to encircle an arbitrary point of the image to perform trimming and then dividing the image based on the golden section and then dividing the image vertically and horizontally into equal parts and then drawing a diagonal line in a rectangular image and drawing perpendicular lines from the remaining vertex of the image to the diagonal line (as shown in the present application drawings 16b and 17b). In contrast the prior art of Komura teaches a grid that is placed over an image and the center point of the image is calculated and the image is magnified to perform the trim process. Nothing is mentioned about a golden section and nothing is mentioned about encircling an arbitrary point and using the circle to perform the trimming process. The same for Hasbe as Hasbe teaches a trimming process but Hasbe does not teach a golden ratio and Hasbe does not teach the grid with a circle over an arbitrary point that is used to perform the trimming process. Stone teaches a "magic lens" overlay that can be used for image trimming but doesn't teach a golden ratio and does not teach the grid with a circle over an arbitrary point that is used to perform the trimming process. Imaizumi and Nagasato also teach trimming frames but don't teach a golden ratio and do not teach the grid with a circle over an arbitrary point that is used to perform the trimming process. Therefore, the prior art either alone or

Art Unit: 2179

in combination are not seen as teaching the limitations of the claims and thus the claims are allowable over the prior art.

Claims 19, 21-25, 27

These claims are dependent upon Claim 18, and are thus allowable.

Computer readable medium

The medium claims 35-36 find support in paragraphs 41, 95 and 149 of the PGPUB. The present application specification recites several storage mediums and does not appear to recite a non-statutory embodiment and therefore the medium claims are interpreted as statutory subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.

Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven B. Theriault whose telephone number is (571) 272-5867. The examiner can normally be reached on M-F 7:30 - 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Weilun Lo can be reached on (571) 272-4847. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
